

### Stacked Bar plot of cell types

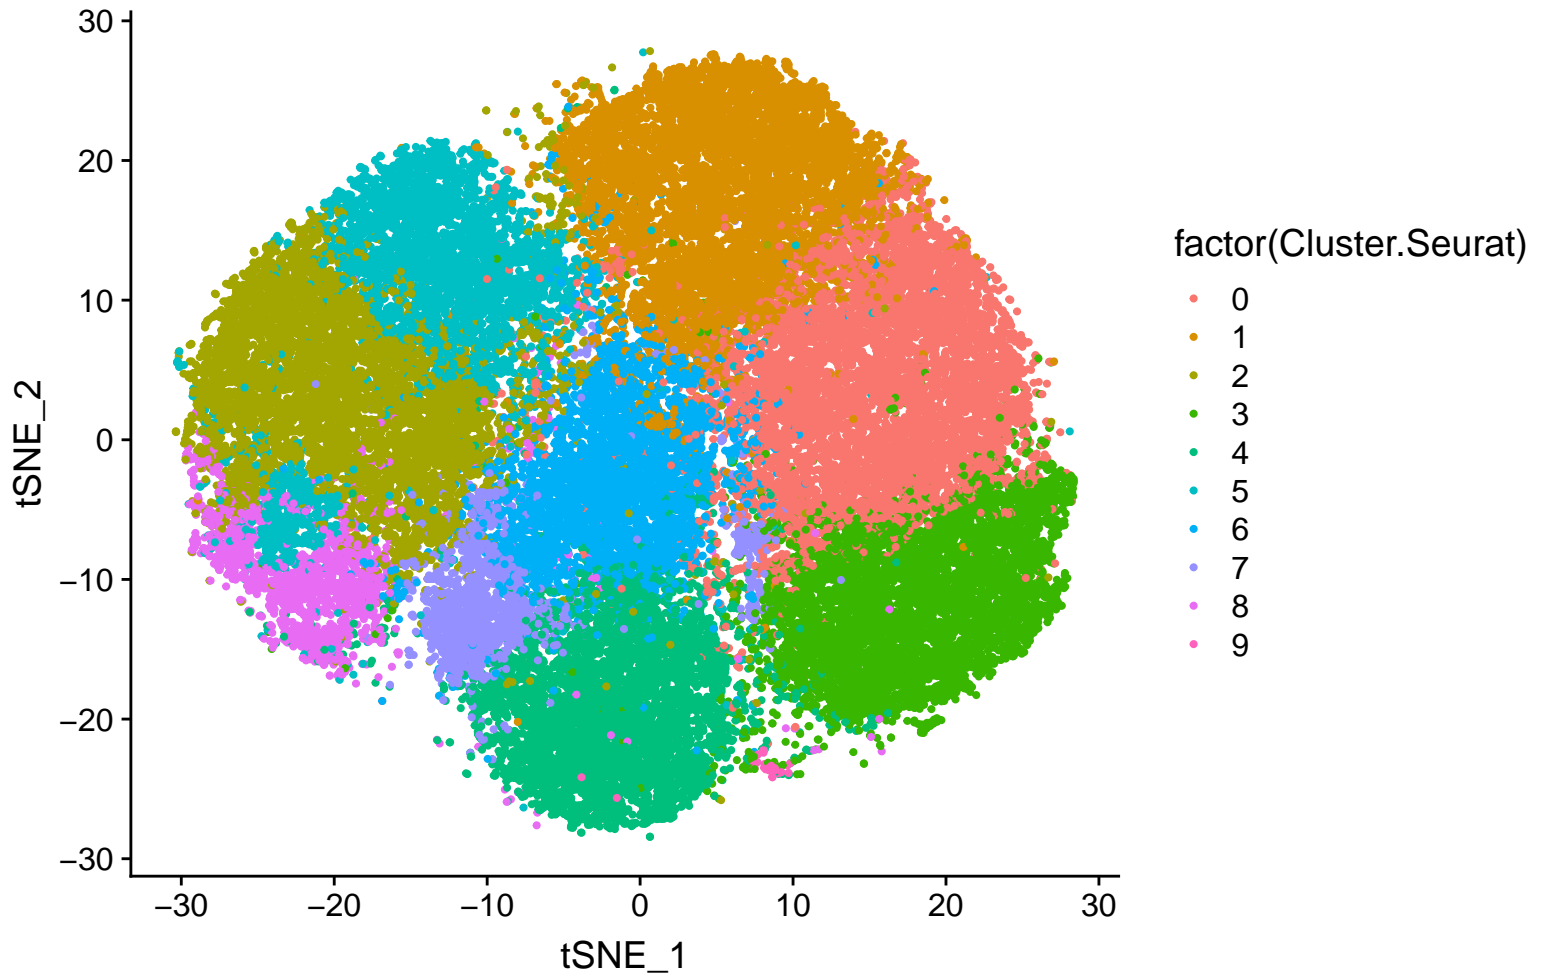

This is a plot of the labelled cell types for each cell in the data.

### Stacked Bar plot of cell states

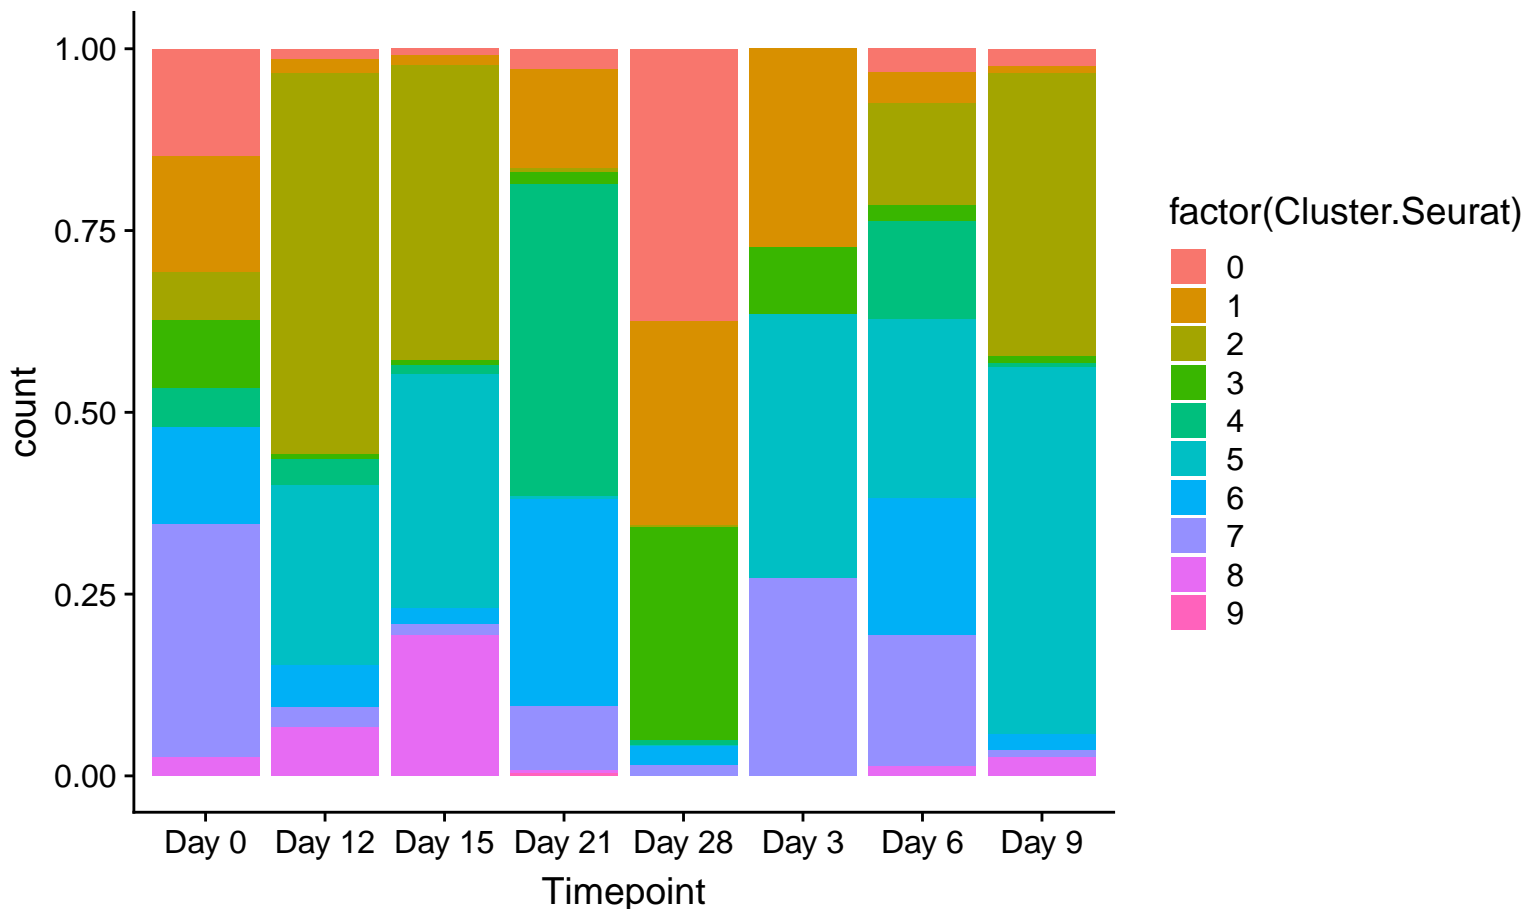

This is a plot of the labelled cell states for each cell in the data.

### t-SNE plot of genetically distinct cell clusters from t-sne

This is a plot of the distribution of genetically distinct clusters in the data

### Stacked Bar plot of cell clusters from t-sne

This is a plot of the distribution of states for each cell in the data.  
Unfortunately, they did not include metadata for which cells belong to which of the 4 transition states
